DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose or teach a scale housing body and scale cover with an supply port for compressed air in combination with the other features of claims 1 and 7.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Cahill et al. 6,144,118 A discloses an enclosure for an optical path in column 5 lines 43-44 but does not teach using compressed air in the enclosure. Hagl et al. 6,097,318 A teaches in column 10 line 60 to column 11 line 7 that air parameters such as temperature, moisture and pressure can affect the accuracy of position measurement but teaches measuring those parameters instead of controlling them by enclosing the optical path. Stimpson et al. 6,496,273 B1 teaches using compressed air to free the window of a position detection device but does not teach using compressed air in an enclosure for a scale.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Judson H. Jones whose telephone number is 571-272-2025. The examiner can normally be reached on 8-4:30 M-F.
